

HOW IT WORKS

Legion of Merit

The Legion of Merit is intended to recognize the achievements of ponies both in their own performance and the achievements of their progeny. Scores can be accumulated over a number of years until the requisite points are reached and a pony can win more than one award in his or her lifetime (The current record is 17 awards). Only championship points will count for these prestigious medals but points can be claimed retrospectively if they have not been used for a previous award.

Championship Points
